TECHNICAL SKILLS

JavaScript (Node.js/Express/MongoDB/jQuery), React (Redux, React-Bootstrap/Material-UI), HTML, CSS (Bootstrap/BEM/Sass), Python (Django/Flask/Discord.py), Java(STS), SQL, MySQL, Postman, MongoDB Compass, Github (Git/Git Bash), AWS, English, Mandarin Chinese

TECHNICAL PROJECTS

Dojo Store | *Frontend & Backend* | Remote | [Github](#) 2021
Ecommerce site signed for the Coding Dojo Bootcamp MERN Stack Project.

- Constructed the backend database using MongoDB, Node.js, and Express to communicate with the frontend.
- Designed the frontend HTML using CSS, React, React-Bootstrap, and Material-UI.
- Used Redux to implement a functional shopping cart system for logged-in users.
- Implemented a product rating and review system using Node.js.
- Utilized Github to collaborate as a team making push and pull requests with updates to code.

Recipe Finder | *Frontend & Backend* | Remote | [Github](#) 2021
User-friendly web application for finding recipes based on a user's available ingredients.

- Used a combination of Bootstrap and CSS to create a user-friendly web design in HTML
- Designed individual recipe page in HTML using CSS and background images.
- Using Django to create a functional backend with search engine and proper redirects.
- Created an admin page to use all CRUD commands on listed recipes.
- Utilized Github to collaborate as a team making push and pull requests with updates to code.

Sleepy Bot | *Bot Development* | Remote | [Github](#) 2021
Discord bot with access to all admin functions and gambling algorithms.

- Created from discord.py to allow users to gain proper control over servers.
- Using different algorithms to create gambling games with built-in artificial currency.
- Deployed in over 30+ servers with positive feedback from users/admins.
